ASSOREN

Degreasing and cleaning agent

Efficient and economical

Assoren differs from other cleaning agents by having a very high content of active ingredients. Very effective cleaning is obtained even at a low dosage. Assoren is economical in use, which leads to considerable financial savings.

Suitable for any purpose

A highly concentrated, alkaline degreasing and cleaning agent like Assoren will clean anywhere - effectively and quickly. Assoren can be used for anything from engines and machines to floor, walls and equipment.

Applications

- Manual cleaning
- High-pressure cleaning
- Rinsing
- Immersion
- Automatic metal degreasing plants

Assoren is self-acting. Leave it on the surface to be cleaned for about 10 minutes before rinsing with water.

Assoren is available in two sizes

- 5 l can
- 200 l drum

Call us if you want further information and guidance regarding the use of Assoren. Data sheet can be forwarded on demand.

Assoren is among other things suitable for the following:

- Workshop cleaning
- Engine / machine cleaning
- Cleaning of oil rigs
- Train/ship cleaning
- Cleaning in the graphic industry
- Cleaning in the foodstuff industry
- General cleaning of floors, walls and furnishings
