Duo Eye Wash Solutions

Several eye accidents involve both eyes. Dust, dirt, chemicals and other harmful substances can enter the eye tissue within seconds and in worse case lead to serious eye injuries.

The new Duo Eye Wash Solutions sets new standards for first aid eye wash bottles by offering the ability to rinse both eyes at the same time – without losing valuable time! Duo is therefore a necessary complement to your current eye wash system. You optimize first aid and creates an even higher standard of safety in your workplace. Duo rinses with a gentle even flow while rinsing eye wash fluid and the damaging substances away from the eyes. Furthermore the registered design of the eye device on top of the bottle is supporting the ability to keep the eyes open during rinsing.

The bottles and stations are available in different variations, which will fit almost every work situation.

1000 ml Plum Eye Wash Duo
Sterile 0.9 % Sodium chloride solution. For injuries with foreign bodies like dust, dirt etc. Complete with an eye device for rinsing both eyes at the same time. Also for refilling of the Duo Eye Wash stations.

Durability: 3 years
Rinsing time: approx. 5 minutes
Art.-No. : 4800
Units per box: 6

500 ml pH Neutral Duo
Sterile 4.9 % Phosphate buffer solution. For neutralising acids and alkalis. Complete with an eye device for washing both eyes at the same time. Also for refilling of the Duo eye wash station.

Durability: 3 years
Rinsing time: approx. 2 minutes
Art.-No. : 4801
Units per box: 6

Plum Eye Wash Station Duo
Wall mounted station containing 1 x 1000 ml Plum Eye Wash Duo bottle, wall mounting device, pictogram and mirror. Especially for general eye washing at smaller work places.

Art.-No. : 4802
Units per box: 1 Station

Plum CombiStation Duo
Wall mounted station containing 500 ml pH Neutral Duo and 1000 ml Plum Eye Wash Duo, wall mounting device, pictogram and mirror. Especially suitable in places where there is a risk of eye injuries involving acids and alkalis.

Art.-No. : 4803
Units per box: 1 Station

Plum Eye Wash box Duo
Dust-proof wall station containing 2 x 1000 ml Plum Eye Wash Duo, pictogram on the front side and a mirror inside the lid. Especially suitable for dirty and dusty production areas and mobile work places.

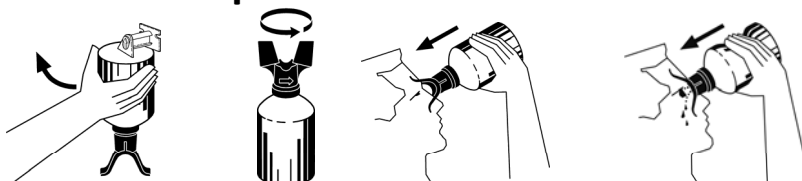

Art.-No.: 4816
Units per box: 1 Station

Plum CombiBox Duo
Dust-proof wall station containing 1 x 500 ml pH Neutral Duo and 1 x 1.0 l Plum Eye Wash Duo, pictogram on the front side and a mirror inside the lid. Especially suitable for dusty production areas where there is a risk of eye injuries involving acids and alkali.

Art.-No.: 4810
Units per box: 1 Station

Fast and simple!

IMPORTANT: Rinse with pH Neutral until the bottle is empty. Continue rinsing with Plum Eye Wash until you reach a doctor.
