

NEW
With Premium you say
goodbye to extreme
dirt and solvents

We put healthy and safe work environment into system

Give tough nails
a careful washing ...

plum

New efficient Premium hand cleanser. Tough on dirt. Easy on the skin and on the environment

Now you can remove even the most fierce oil dirt with an efficient but mild hand cleanser without solvents. The new Premium hand cleanser has a unique composition of e.g. selected vegetable ingredients that dissolve dirt and at the same time has a regreasing effect on the skin.

It removes fierce and sticky oil dirt such as diesel oil, sooty oil, brake oil, as well as wood preservatives and serigraphy colours.

The hand cleanser is lightly foaming. It makes it easy to rinse off and does not stick to the roots of the nails. It also leaves the skin soft and pleasant.

Premium is lightly scented, but has no added colourants. The abrasive material is natural corncob granulate. The coarse structure supports the cleansing effect and makes cleaning easier. In that way you take both your skin and the environment into consideration.

Why choose Premium?

- Dissolves even fierce oil dirt WITHOUT the use of solvents
- Gentle to your skin
- Has a regreasing effect that leaves your skin soft and pleasant
- The lightly foaming effect makes it easy to spread and rinse off
- With the natural abrasive, corncob granulate, you take care of the environment
